## AROMATHERAPY

**Release the Fire Within**  
**Diffuser**

Instruction manual

# Introduction

Hey beautiful soul!

You made a **great choice**. Happyhaves is a premium holistic wellness brand, specializing in high-quality, eye-catching aromatherapy products that will **improve your mood and overall well-being**. The perfect gift for you!

We create eco-friendly products that help you **live more mindful** in this sometimes busy and high-demanding world.

Happyhaves is founded by a small group of **down to earth** people who are looking for **more meaning in life**, self-development, and spiritual growth.

It's our mission to **spread holistic happiness** around the world. Not just by only offering aromatherapy, but truly inspiring **how we as human souls can live more naturally and feel more connected within**.

p.s we got a **special gift** for you at the end of this book :)

**Breathe Better, Every Day**

# Aromatherapy

## OUR VISION

Aromatherapy is the use of essential oils to enhance the harmony and well-being of body, mind and spirit. With this unique design of the **Release the Fire Within** Diffuser you can bring the power of our nature and essential oils into any space.

## WHY WE DO IT

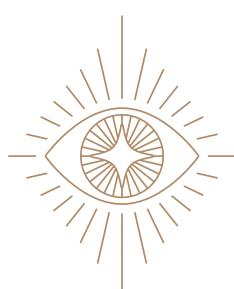

Besides making people happy we also care (a lot) about making our planet happy. That is why we donate 1% for a better world.

# Overview

## OVERVIEW

The Happyhaves **Release the Fire Within** Diffuser is made of high-quality materials and bpa-free plastic. We used calming natural colors for creating this modern eye- catcher. This Happyhaves diffuser will give you a warm feeling by only looking at the flames. No matter if you're at home, at your office or while doing yoga/meditation.

# Steps

## STEP 1

Remove the upper lid cover (Shell) of the diffuser

## STEP 2

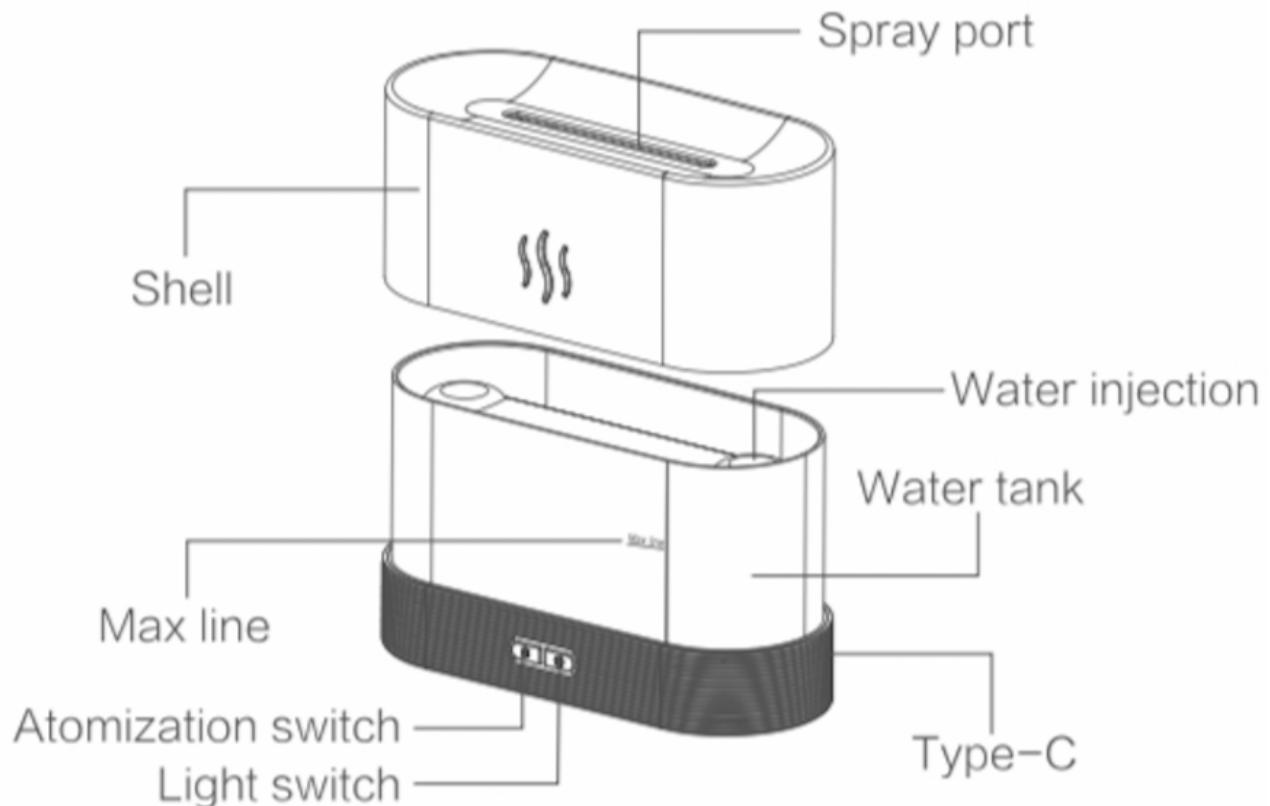

Plug the adapter (Type-C) at the bottom of the diffuser

## STEP 3

Add for 80% plain water to the water tank (till Max. line) and add 8-10 drops of organic essential oils.

## STEP 4

Press the atomization switch to turn on aromatherapy atomization. Short press the light button to turn on the flame atmosphere light. Press and hold again to increase the brightness by 30%. Short press again to turn off the atmosphere light.

# Important & Maintenance

## Important to know..

Please check below to avoid malfunction of the **Release the Fire Within Diffuser**:

- Only use tap water (do not use mineral water, sparkling water, etc.)
- Always keep on stable flat surface. Do not place in an unstable area
- The maximum water volume of the water tank is 180 ml, and the water injection volume shall not exceed the maximum water level indication line, otherwise the atomization effect will be affected or water leakage will cause damage to the diffuser
- Do not switch on power when adding water to the diffuser or when the tank is empty
- Do not touch the ultrasonic vibration plate
- Clean regularly as per maintenance instructions to avoid malfunction
- Always unplug from power supply before maintenance
- Do not put the diffuser below furniture, clothing, walls, etc.
- Keep away from direct sunlight, heat sources and air conditioners
- Keep away from electronic equipment
- Keep cord clear of pathways, and do not pull forcefully at any point
- Please use the included Type-C 2A power cord
- If smoke or burning smell is detected, unplug immediately
- Keep out of reach of children and pets
- Never move the product in use and also do not touch any part with wet hands
- During operation, the sound inside the water tank is the sound of the atomization, which is a normal phenomenon

## Maintenance

After using 5-6 times, or 3-5 days straight, please clean the **Unleash the Fire Within Diffuser**.

Step 1. Unplug the diffuser and remove the cover

Step 2. Pour out any remaining water from the tank

Step 3. Add a small amount of eco-friendly soap and water, and use a swab to gently clean it. Use a cleaning cloth to dry it lightly.

Important: Make sure to clean it on a stable surface to avoid water flowing into the air outlet. Take care of your diffuser and it will take care of you.

# Troubleshooting

Please refer to the table below in the event of the product operating abnormally:

If product doesn't work well, please refer to the following points before requesting repairs:	
Will not switch on or switch off	<ul style="list-style-type: none"><li>• Is there enough water in the tank? --Please add water to the tank</li><li>• Is the power cord connected properly? --Please disconnect, check cables and re-connect carefully.</li></ul>
No mist or abnormal mist	<ul style="list-style-type: none"><li>• Not enough water? or too much water? --Please add suitable amount of water in the tank, water must never be filled over 500ML (MAX)line.</li><li>• Dirt on the ultrasonic plate? --Please refer to maintenance instructions remove and re-install correctly, so vapors can be released freely.</li><li>• Cover and inner cover are not installed properly? Dirt on the air suction port on the underside of the base? --If too much dust in the air suction port, the mist will be restricted to come out. Just clean it.</li></ul>
Water leakage from product	<ul style="list-style-type: none"><li>• Cover and inner are not installed properly? --Remove and reinstall correctly, so vapors can be released freely.</li><li>• Low temperature or high humidity? --Under these conditions, the mist may condense quickly into water droplets.</li></ul>

## Product Specification

Model: DQ701

Weight: 90g

Current: ≤900mA

Input: DC5.0V/2A

Rated Power: ≤4.5W

Size: 171x75x101mm
